

Somers Energy Environment Committee

Somers Springs Into Sustainability

Saturday, April 30, 2016

12:30 to 3:30 p.m.

Somers Town House

Somers residents, adults and children alike, are invited to join us and learn about what the Town has done with regard to sustainability and what is being planned for, through a variety of presentations, informational displays, handouts, and children's activities.

Energize NY, Field Goods, Solarize Somers, Somers Land Trust, Somers Litter Task Force, Somers Seed Lending Library, Sustainable Westchester and Westchester County Cornell Cooperative Extension will be present.

The Somers Energy Environment Committee (SEEC), a Town-sanctioned committee will provide presentations and/or information on Complete Streets (making Somers more walkable with cleaner air/environment for children and others), Municipal Permeable Paving, and Solar Gardens (providing solar for those that are not currently qualified due to location, condo ownership, etc.).

Food courtesy of Fratelli's, Il Forno, Italian 101, Mama Rosa's, Somers Diner, Somerfield's, and Taste Deli.

For further information, call the SEEC Secretary, Denise Schirmer at 277-5582 or email her at dschirmer@somersny.com.
