PUBLIC COMMENT:

Arnold Folberth, Purdys, said that he read an article in the Somers Record with regard to the paving in that Lake Purdys area. He said that the article was very critical of the Highway Superintendent and the Town being cheap and cutting corners. Councilman Clinchy said that was a letter to the Editor in the Newspaper not an article. Mr. Folberth said that the letter was disturbing to him, they had gone through the winter and all of the roads seemed to be in good shape.

Mr. David Sullivan, Anita Road, said that he had an issue with the parking on Old Tomahawk Street. He said that there was a lot of Commercial Space in that area and people were parking on both sides so that there was not even enough room for one car to drive through the middle. He said that the Town should put no parking signs on the sidewalk side on that road and he showed the Board a photo of the road when he had gotten home that evening. Mr. Sullivan said that once a month Traditions 118 held a Night Club in their Restaurant and the parking was terrible on those evenings. He said his second issue with that Night Club was the music from the establishment was so loud that the bass shakes his house. He said that he visited and called the business asking them to turn down the bass and he called the Police. Mr. Sullivan asked the Board to consider this when they were issuing their Dance and Entertainment permit for the upcoming year. He said that his last issue was with regard to the condition of his road. He said that the repair that the Highway Department did was better but the repair was already breaking down. Mr. Sullivan said that the road was unsafe and he wanted to make sure that it was going to be addressed.

Ms. Polly Kuhn, Heritage Hills, said that she believed that the Town Board was still the Lead Agency on Somers Crossing and asked if there was any report on the Final Environmental Impact Statement (FEIS). The Supervisor said that to the best of his knowledge the Draft Environmental Impact Statement (DEIS) was responded to by the DEP, DEC, Westchester County and Town of Somers. He said that there were hundreds of issues that needed to be addressed.

The next item on the agenda was the approval of the minutes.

with the intention of learning about what they could offer the Town as far as grant identification and grant writing for the Town. He said that he would like the Board to consider entering into contract with them. The Supervisor said that it was a \$36,000.00 Contract, payable in four installments. Councilman Ciriaco said that the Board was in the budget process at that time and they were asking Departments to cut their budgets. He suggested that the Board wait until after the budget process was complete before they made this decision. Discussion ensued with regard to the benefits the Town could see with this contract and they were willing to give J. O’Connell and Associates the opportunity to work for the Town.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Garrity, it was,

RESOLVED, that the Town Board does hereby enter into an agreement with J. O’Connell & Associates, Inc., Grant Consultants beginning November 1, 2015 and,

DOES HEREBY, authorize the Supervisor to execute said agreement.

Proposed road
names for the
Somers Realty
Planned
Hamlet Phase
3

The Supervisor said that the next item on the agenda was with regard to the proposed road names for the Somers Realty Planned Hamlet Phase 3 – Halstead Road, Hoyt Street, Columbus Street and Reynolds Road. He said that he proposed that they adopt Reynolds Road. He explained that John Reynolds was a Revolutionary War Solider who lived in the Town of Somers. The Supervisor said that they recently put a plaque at his gravesite in Mt. Zion Cemetery.

Thereupon motion of Supervisor Morrissey, seconded by Councilman Clinchy, it was unanimously,

RESOLVED, that the Town Board does hereby authorize the name of Reynolds Road for the Somers Realty Planned Hamlet Phase 3.

Somers
Pointe
Country
Club Site
Plan

The next item on the agenda was Somers Pointe Country Club Site Plan. The Supervisor invited the Applicant to the podium to give a presentation of what was being proposed. Mr. John Petricini, Project Engineer, said that the proposed development consisted of what was originally approved for this parcel as part of the Heritage Hills project. He explained that the original project included three proposed Tennis Courts and they were currently proposing two of those three. He continued that there was a Swimming Pool and Cabana and three parking lots and they were all similar to what they were proposing. Mr. Petricini pointed the areas out on the plan. Discussion ensued with regard to the number parking lots and the surface that was being proposed.

OCTOBER 8, 2015 – REGULAR MEETING

Councilman Faulkner asked how large the proposed swimming pool was. Mr. Petricini stated that currently they were at 15,000 square feet. Councilman Faulkner asked if there was consideration to make that larger. Mr. Petricini said that had been discussed and explained based on New York State Health Code if they went any larger they would be required to put in a perimeter overflow system and that would exceed their expense. The Supervisor said that by limiting their pool size they were also limiting the number of people who could benefit from the pool. Mr. Petricini said that was correct. The Supervisor asked what the number of users was. Mr. Petricini said based on State Health Code they were allowed 106 people inside the fenced area. He said that they would be selling this as memberships, one swimmer would be on membership. He said that there would be 100 memberships.

Councilman Garrity said that the reason they were before the Board at this time was because what they were proposing went against the current DRD of Heritage Hills. The Supervisor said not the plan itself, their marketing plan. Mr. Petricini said that the current Code required this to be primarily for residents of Heritage Hills. He said that there was no clear definition of what primarily meant and the Planning Board recommended that they come to the Town Board for a change to the text of the Zoning to allow for them to have outside users. The Supervisor said that he did not see why they could not move ahead with the project without the DRD being amended and just using this for the primary use of the Heritage Hills members. Mr. Petricini stated that they did not see that as a financially viable option, Heritage Hills had their own pools. Discussion ensued with regard to the requested change to the DRD, opening the membership up to people who did not live in Heritage Hills and the definition of primarily. It was suggested that they reach out to the residents of Heritage Hills and/or current members of the Golf Club to see if there was interest in joining this club.

The Town Attorney explained the interpretation of the Town Zoning Code was the Zoning Board. He said that the Building Inspector could issue an opinion with regard to primarily and if the applicant was dissatisfied with that they could appeal to the Zoning Board.

The Supervisor said that the applicant had not been denied as of that time. He said that he was concerned sending this to the County when his office had received opposition to the project. The Town Attorney said that the Town Board could receive their request and hold on to it without commencing the process and give the applicant the opportunity to try to work collaboratively with the Heritage Hills Society and then come back to the Board with information.

The Supervisor said that the other option was for the applicant to study their proposal and remove the piece with regard to changing the membership. He said then they could go ahead with their plan. Mr. Richard Guino, Applicant, stated that the Planning Board said that they had to come before the Town Board before it could be built. The Town Attorney said that the Planning Board said that because they did not survey their membership and they did not have any idea of how many Heritage Hills residents would sign up for an increased membership. He said that the Planning Board was in the dark with regard to this and they did not want to approve something that could not meet the standards.

The Supervisor said that what they were hearing was a little resistance from the Town Board. Further discussion ensued with regard to the definition of primarily and ways they could move forward. The Town Attorney recommended that the Town Board did not begin the process because he was hearing a reluctance. He said that they needed to do some more studies and have conversations with Heritage Hills Society to determine something that they would support.

Councilman Garrity left the meeting at 9:05 PM

OCTOBER 8, 2015 – REGULAR MEETING

Ms. Patricia Ploss, President of Heritage Hills Society, stated that they were strongly opposed to any change to the DRD Zone. She said that she agreed with the Board that the applicant still had some work and research to do.

The Town Attorney explained that if the Board was not going to make that Zoning Amendment in the foreseeable future the applicant needed to determine whether or not they wanted to proceed. He said that it was up to the applicant to convince the Planning Board if they wanted to move forward that they could meet the standard of primarily. He said that meant to do what everyone has suggested and that was doing a marketing survey of their existing membership and a survey of all of the residents of Heritage Hills.

Mr. Petricini said that they did that to begin with and he could not get an answer to what primarily was. The Town Attorney said that the Building Inspector was the person that interprets the Code and if the applicant was unhappy with that interpretation they would then have an opportunity to apply to the Zoning Board of Appeals.
